1. Executive Summary

About the report

The report is first of its kind document prepared by ASPA to analyse news items and understand the nature of counterfeiting activity in India, Industries and regions which are most affected by counterfeiting.

Purpose of the report

There are various factors contributing to the increase in counterfeiting activities. One of the most prominent factors is lack of awareness about the sheer extent of counterfeiting. The purpose of this report is to provide insight for all stake holders including brand owners, government authorities to deepen their understanding on counterfeiting activities through trends and analysis. It will also help policymakers to formulate strategy and policies to fight this menace.

Methodology

ASPA is building up innovative tools to help policymakers on the need for action and legislation in fighting counterfeiting. One such initiative is the Counterfeit News Repository. The portal is a single stop source for most counterfeiting incidents reported in India. The information at the portal is all statistical in nature and has been compiled from third party sources, which we believed to be reliable. The report is prepared from the database available at Counterfeit News Repository. For more visit at

<https://www.counterfeitrepository.com/>

Key Highlights of reports

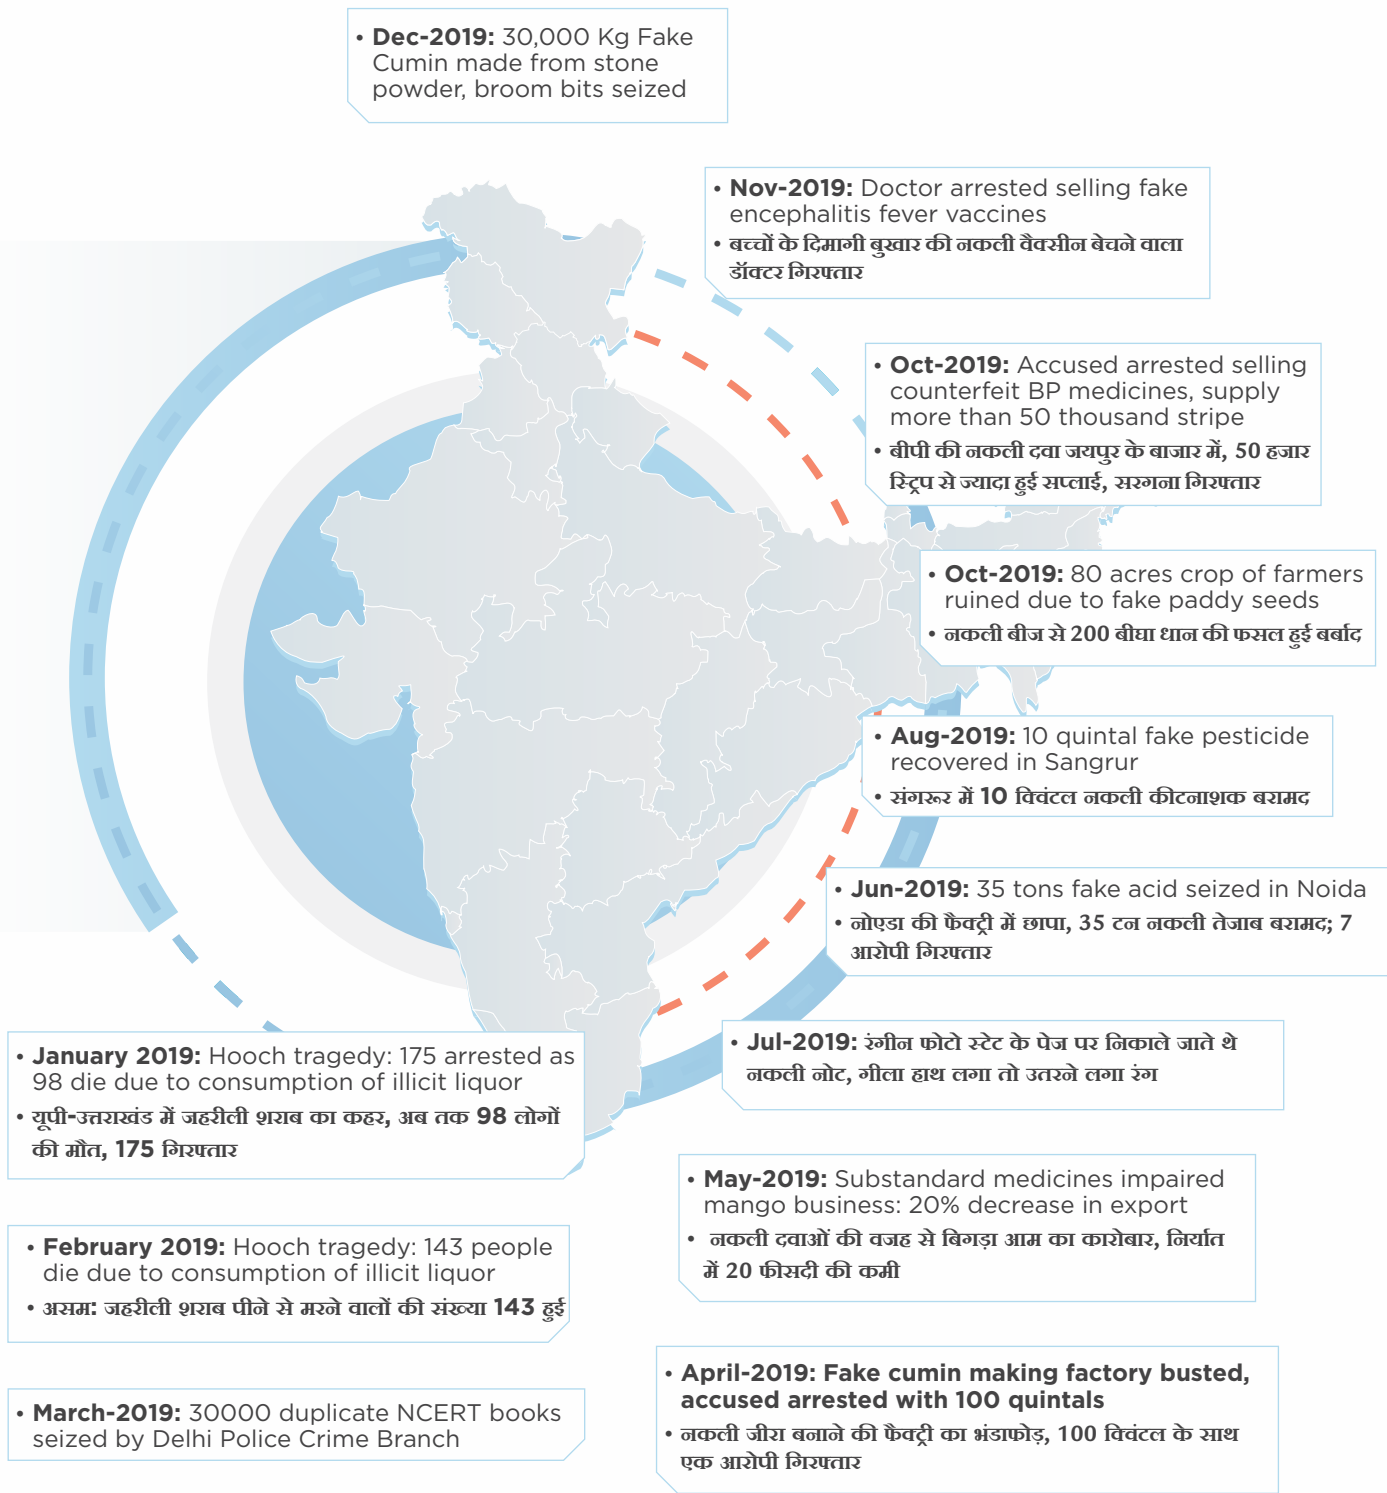

- First edition of counterfeit incidents reported in India.
- Number of counterfeits incident reported in media in last two years.
- Top ten Products which are most vulnerable to counterfeit attack.
- Top ten States (Location) for counterfeit products (Hot Spots)
- Counterfeit Index Ranking – State Position with highest number of cases reported
- Special feature on COVID-19 & Counterfeiting
- Index of monthly top counterfeit news reported in 2019

The legal framework:

For the purpose of the report, the term “counterfeiting” is used in its broadest sense and encompasses any manufacturing of a product which so closely imitates the appearance of the product of another to mislead a consumer that it is the product of another. Hence, it may include trademark infringing goods, as well as copyright infringements. The concept also includes copying of packaging, labelling and any other significant features of the product.

Price: Complimentary after registration as PDF
<https://www.aspaglobal.com/report-for-nation>

Examining the probability of disease being spread due to currency notes as well as probability of polymer currency notes in India as an alternative of paper currency.

"As a nation, we now face a serious threat and challenge from the illicit economy.

Illegal activities slowed industrial growth, thus affecting producers, and stunted revenue, hitting job growth. Consumers were the ultimate victims of counterfeiting, smuggling, and piracy as they paid excessive prices for substandard products that also increased exposure to health and safety risks.

To fight the crime of the 21st Century, the involvement of all stakeholders is important and therefore, we must maintain all that we can do to prevent it. A hand is what is required to come out of the and this is where we prove our responsibility".

JOIN US IN FIGHT AGAINST FAKES!

About

Formed in 1998, a non-profit organization, Authentication Solution Providers' Association (ASPA) has a rich heritage of 21 years and is recognized globally as a regulated and ethical organization. It is working to build up a world class environment that supports the advancement of authentication ecosystems in India against the counterfeiting activity and illicit economy. ASPA works on four key areas a) Awareness b) Advocacy (Industry Partnership) c) Research & d) Innovation. Its member companies provide physical and digital authentication technologies, solutions & systems present across the globe. As an industry body of authentication solutions providers, it encourages its members to adopt best practices, standards, and advanced use of technology in providing cost-effective anti-counterfeiting solutions against counterfeiting.
