In Ahlisdar village of Fatehabad, Haryana, the CM Flying Team of the Health Department has busted the gang while raiding. The team has seized bottles of spurious milk powder, urea and glucose. The team has started action by seizing all the goods and adulterated milk.

view of the festive season of **Hisar**, gangs producing adulterated milk, paneer have become active. Ahead of the festivals, the demand for products made from milk has started increasing, in view of which some gangs are playing with people's lives in the pursuit of earning huge profits. A similar gang has been busted by the CM Flying Team of the Health Department in Ahlisdar village of Fatehabad, Haryana. The team has seized bottles of spurious milk powder, urea and glucose. The team has started action by seizing all the goods and adulterated milk. The Health Department team has recovered about 6 quintals of adulterated milk from the spot. This adulterated milk was to be supplied to different dairies of Sirsa. The Food Inspector has taken samples of milk and sent them for examination. In fact, CM Flying had received information that accused Shyam Chand supplies adulterated milk on a large scale in the village.

On Tuesday morning, a team was formed under the leadership of ASI Sushil Kumar, ASI Ranbir Singh, SI Nahar Singh, ASI Vipin, SE Anil and Food Inspector Surendra Punia from CM Flying.

The team had information that accused Shyam Chand goes to supply milk in the morning, after which the team raided at 6 am on Tuesday. When the team raided the house, all the products of making fake milk were found inside the house. The team recovered 6 quintals of milk from the spot.

When the team inquired, he told that he used to supply this milk in Sirsa. The team has recovered glucose bottles, urea and fake powder from the spot. The team has started action by seizing all the goods and adulterated milk.

ASI Sushil Kumar said, 'This raid was carried out on the basis of secret information. 6 quintals of milk was recovered from the spot. Urea, glucose and other items have also been recovered. Milk samples have been sent, after the report comes, further action will be taken.
