

Gujarat: 30,260 kilograms of ‘fake cumin’ seized from Unjha godown

A total of 30,260 kilograms of spurious cumin seeds and raw materials were seized from a godown in Unjha, a well-known hub, by the Food and Drugs Control Administration (FDCA) Thursday. Unjha is the biggest market and exporting centre for spices like cumin, fennel seeds, Isabgol and mustard seeds.

The flying squad of FDCA, Gandhinagar, local FDCA officials and Gujarat police conducted the raid on the godown on Gangapur-Rampur road belonging to Dilip Patel.

“The accused used to mix the spurious cumin with the real one. This was done to prevent customers from detecting the presence of the spurious material,” Dr Hemant Koshia, Commissioner, FDCA told The Indian Express.
