

Counterfeit cement raid in Jahangirabad

India: Jahangirabad police have raided a cement warehouse, seizing 437 bags of counterfeit cement. The owner has been arrested under the Copyright Act of the Indian Penal Code.

The raid followed a complaint from Delhi resident Raunak Joshi, head of a company identifying fake and adulterated products. Joshi reported unauthorised sales of cement under the UltraTech brand in Jinsi Square, Jahangirabad. The police's operation at Mohammad Siddiqui's shop and warehouse uncovered the counterfeit cement, some falsely labelled as UltraTech and others with different brand labels.
