

Fake Aadhaar cards through fingerprints: CBI arrests 3 people!

Officials said that the CBI has arrested 3 persons and registered a case for producing fake Aadhaar cards for Rs 25,000 using fake documents and fingerprints in Rajasthan.

In this case, Aadhaar cards were made using everything including retina prints, hand and toe prints of school going children. The crime came to light following a complaint filed by Manohar Lal, an IT employee in Sanjore.

Also, cases related to fake Aadhaar cards have been registered in many districts across Rajasthan. Sanjore district is 150 km from the India-Pakistan border. Within 3 days of the registration of the case, the Ministry of Electronics and Information Technology intervened in the matter and sought a CBI probe.
