

Fake cosmetic makers raided across Gujarat, products worth ₹1 crore seized

The state Food and Drug Control Administration (FDCA) tested a total of 14 samples of cosmetics and took strict action against those involved in the sale of duplicate cosmetics after finding them adulterated in Gujarat on Thursday.

Products like oil for men, herbal massage oil were being illegally manufactured and sold by advertising them on social media like Instagram and falsely promoting them on online platforms like Meesho in Surat, without any cosmetic license, using the license of another manufacturing firm, and putting attractive and misleading labels.

FDCA Commissioner Dr HG Koshiya said that officials raided the residential house of Rajesh Lathia in Surat and found a large quantity of packing material and boxes of duplicate products online.
